Susan Chaki

Hazardous Materials and Waste Management Division Colorado Department of Public Health and Environment 4300 Cherry Creek Drive South Denver, Colorado 80222-1530

Dear Ms. Chaki,

This letter is in response to the Colorado Department of Public Health and Environment's (CDPHE's) letter dated September 7, 1994, regarding the Final Phase III Resource Conservation and Recovery Act (RCRA) Facility Investigation/Remedial Investigation (RFI/RI) Report for Operable Unit (OU) 1 (June 1994). CDPHE's letter states that a limited number of issues have not been adequately addressed by the Department of Energy (DOE), but that "the Division does not believe that these issues will significantly impact the results of the RFI/RI Investigation."

DOE agrees that the final results of the report will not be impacted by the resolution of these issues. Therefore, based on this fact, as well as the fact that DOE has moved forward to the Record of Decision (ROD) stage of the process for OU 1 with concurrence from the Environmental Protection Agency (EPA) and CDPHE, DOE does not feel that further revisions of the RFI/RI report at this stage of the process would be a valuable use of limited resources. The results of the RFI/RI and the choice of a preferred remedial alternative would not change as a result of these revisions. DOE considers the RFI/RI report to be adequate to support the selection and implementation of the preferred remedial alternative for OU 1. This letter serves to close the investigation stage of the process for OU 1.

If you have any questions, please call me at 966-3367.

Sincerely,

Sandi MacLeod
